

SENIOR DOG'S HEALTH CHECKLIST

Dog's name: _____

To help your veterinarian identify your dog's needs, please complete this form.

My dog is _____ which converts to _____ in human years.

I feed my dog _____ brand of dog food.

Symptoms	Yes	No
I think my dog has gained or lost weight during the past year or two. Change in appetite or feeding habits?		
I've noticed a change in frequency and consistency of my dog's number two's (poo).		
I've noticed my dog sleeps more during the day or is more restless at night.		
I've noticed increased water consumption or urination or accidents in the house.		
My dog's breath makes me hold mine!		
My dog's coat seems dull, dry, flaky, oily or unkept.		
My dog is less active or has more difficulty getting up, climbing stairs, or seems stiff or in pain.		
My dog's energy level, awareness, or family interaction has decreased during the past year.		

Do you have any specific questions or concerns regarding your dog?
